The friends of Gen. Lewis Cass for next President held a meeting in Faneuil Hall, Boston, President Aaron Hobart in the Chair. Hon. John M'Keon of this City made the chief Speech, preceded by N. Gale and W. J. wash; and a long letter from Richard Rush of Paneulogistic of Gen. Cass was read and heartily Pan rung. The meeting is styled 'very large and garited in the Boston Post; if it were so, with he mercury below zero, there must have been a good beginning for a new party.

ATHENS, November 27th, 1843.
I need not say I am greatly interested in Athens. We came here just at the right time. The National Assembly met the day before our arrival. I went vesterday to see them. They appear on the whole obeavery respectable body of men. I was struck with the maturity of age and marks of intelligence pparent in the members. I saw very few among whole number (230) who were not over thirtyve and by far the largest part appeared to be from nty to sixty years of age. The President, Notaras (Corinth, is said to be more than one hundred. He ok the chair at the opening of the Assembly, beause the oldest member, and it is probable out of spect to his age and character, he will be elected resident, though one of the four Vice-Presidents to schosen, will perform the duties of his place. Maof the heroes of the former Revolution were preent as members. Among them old Mauromichalis who figured largely in the war with the Turks, and s who conducted the fire-ship that destroyed Turkish Admiral. The Revolution thus far has sen conducted with marvellous good order. Scarcewanact of excess or violence has occurred, but ars are entertained how it may terminate.

FIRES.—We learn that the Hotel near the glassworks in Sandlake, at present occupied by Mr. Isaac van Arnam, took fire early on the morning of the 30th inst. and was entirely consumed. A considerable portion of the furniture was removed in a damaged condition. The building, we are informed, was insured for \$1,500.

We also learn that three dwelling houses, situated a few rods above the gate, near Speigletown, on the northern turnpike road, were burned on the same norming. The loss must have been considerable.

THURSDAY. IL S. COMMISSIONER'S OFFICE.

IMPORTANT ARREST .- Two rather superior lookug men, named George Gage and Charles Botsford, were arrested last evening by officers Stokely and Cockefaire, and nderwent an examination to-day charged with attering alred Traisury Notes, knowing the same to be altered, &c. It will be recollected that a few months ago the sum of \$2100 in Treasury Notes was mailed at Van Buren, Arkansas

by a gentleman named Campbell, destined for St Louis via Louisville, and that they were purforned at one of the Post-Offices on the route, never having come to hand. The notes, On the same night that the package was mailed, Mr Camp-Sell was assassinated at Van Buren. He was a lawyer by pro-

fession, and a partner of Judge Parshall, who is now in New-York. The numbers of the Treasury Notes were retained, and a good look-out since kept for them. Within a short time, some of the same notes, altered, (such as making 450 459, &c.) have been placed in circulation, which led to the arrest of Gage and Botsford.

It appears that Botsford was at that time an Assistant Post-Master at Fayetteville, Arkausas, about 50 miles from Van Buren, and the fifth Post Office from it on the Louisville

route. He left there some time afterward and came to New York, where he joined his old friend Gage, who keeps a sort of broker's office in West Broadway, near Leonard street. He troyed, with all the presses, vats, boilers, &c. boards at resent, or did previous to this arrest, at 46 Hudson street, and has a wife and child. He was poor, it is said, when he left Van Buren and on his first arrival here, but has been well in funds since. Gage and himself have been very intimate. Mr Baker, broker, testified to Gage passing upon him some Treasury Notes, which have been identified as those natiled, and Mr Secor, broker, corner of Broadway and Canal street, on the examination testified that the prisoners came to his office together, and that Gage got him to change a \$500 and

18100 Tr-asury Note.
In relation to the murder of Mr Campbell, it is feared that it is connected with the mailing of the package, to destroy his estimony as to mailing, or something of the kind, but of

Mr J B Scoles appeared at the examination as counsel for Gage, and Mr Wm M Price for Botsford.

They are held on the charge. CIRCUIT COURT Before Judge KENT.

John W. Thorne vs. Samuel H. Moser.-Slander (already referred to.)-This case was concluded this day. It appeared that the check was passed, &c. as before statedthe pretended Capt Waite said he was consin to the Thornes of Brooklyn; and Mr Thompson, a relative of Mr Thorne, man's hand, and yet Mr Thorne proved by three witnesses that he was home at his farm near Rockaway, L I, on the 2d of December, for one or two days previous, and five or six days afterward. The close resemblance of Mr Thorne to the person who passed the check was stated by the Court to have been one of the most remarkable things ever brought before a Court of Justice. The defence did not justify, and declared, after the proof of alibi, their belief in Mr T.'s innocence. The

POLICE OFFICE. Last evening, as Mrs. Elizabeth Walker, of 54 Last evening, as Mrs. Elizabeth Walker, of 34 Edridge street, was passing along Cherry at from the house of a friend, where she had drunk too freely, she was persuaded by a giri named Margaret O'Brien to enter house No 58, kept by Louisa Mitchell, where she was treated with drugged it quor, which put her to sleep. In that state, she was robbed of many articles of her dress, to the amount of about \$25, by the inmutes, who then threw her down statis... Louisa Mitchell, Margaret O'Brien, Joanna Galligan and Elizabeth Kennedy were soon after committed for the offence. The house has been complained of as a misance.

John Hunter, Thomas Houston and Lewis Kivlahan were committed to prison for a burglary committed some LARCENIES .- John Prince, colored, Henry Wilson, do, and John Brady, were committed under this Rad.

Commercial and Money Matters.

For sales at the Stock Exchange, see Last Page.
THURSDAY P. M. The sales at the Board were limited, but prices were generally firm.

The mails which have arrived from the South have brought but few bills, and the market to-day is firm at 9 a 91 premium, with net much offering. Francs are 5 321 a 5 30. Some farther purchases have been made for the steamer, as in consequence of the harbor of Boston being closed by ice, it is doubtful if she can be got out for several days.

The Banks are again attempting to advance the rate of interest, and some ask 6 per cent. Money, however, was offered at 51, and in the street could be obtained at 5 per cent, freely. Some loans were made as low as 41 per cent. It appears that the defalcation of Kissam has been

going on since 1836, having been concealed by false entries at the times of making up the statements of the situation of the Bank. As he has been very sick for some time, he could not make the proper entries for the statement of the first of February. It is supposed that nearly the whole amount has been gradually abstracted in living beyond his income, aping the expenses of families tar beyond him in means. He was a very amiable, gentlemanly man, and his case has excited much sympathy.

There are rumors of another defalcation in Wallhame of Harris, in this city, slipped down on the ice street. The offender is said to be an officer in an Insurance Company. Defalcations seem to be gregatious, and never run singly. The Treasury Department have issued a notice to claimants under Arch street on Friday evening last, fracturing her surance Company. Defalcations seem to be grega-

the Convention with Mexico that the holders of certificates issued by the Department under that Convention will, on the presentation of their respective certificates at the Bank of the Metropolis on or after the 7th day of February inst. receive their proportions of the second instalment and interest paid by Mexico, after deducting expenses of transmission and insurance on the transmission of the funds to the United States. The amount to be distributed is \$137,748 25, and is equivalent to six 83224-100000 per cent, on the respective awards. Claimants who are desirous of receiving the amount payable on their certificates at Boston, New-York, Philadelphia or Baltimore, are requested to notify the Register of the Treasury of their wishes on or before the 10th day of February next, stating the dates, numbers and amount of their respective certificates, upon which due notice will be given of the time of payment at those several cities. A petition was presented to the Legislature of New

Jersey on Tuesday, from the Ramapo Railroad Company, for authority to commence their road, upon a capital of less than \$400,000, which sum, it is now ascertained, is more than sufficient to defray the costs of the proposed road.

The Sheriff of Fairfield county, Conn., made his appearance in Bridgeport again last week, and attached the deposites, of Mr. Harrall in the Connecticut Bank, and also the rents which were due to him. He likewise made a levy upon some real estate, the first that has been made upon that species of property in these cases. Mr. Beardsley, whose property was seized on a former occason, has brought a suit against the Sheriff, which will be tried at the February sessions of the Superior Court.

At New Orleans on the 17th, \$117,000 in specie were received. Since 1st Sept. the receipts have been \$2,947.848. Exchange was in active request at full prices. Sterling, 71 a 8; Francs, 5 371 a 5 55; New-York 60 days, 2 a 21 dis; sight 1 a 11 dis. At Mobile 18th, there was a fair business in exchanges; little inquiry for sterling bills at 74 a 74 per cent prem. Checks on New Orleans at sight. par to 1 prem. In other descriptions no change. Alabama notes are firm at 4 per cent discount, with less offering.

At Louisville Eastern exchange was abundant at par to ½ prem, with but a light demand for it. In the Louisiana Legislature Mr. Brewer's bill to reduce the rate of conventional interest from 10 to 7 per cent. came up for a reading. Mr. Brashear moved to insert 8 instead of 7 per cent, which was negatived.

At Baltimore, January 30, City 6 per cent firm at 1071 to 1071. State of Maryland 6 per cent 741 to 75-upward tendency, and holders firm-very little changing hands. 5 per cent do 64 to 65-very little in market.

Banks in Maryland 1 to 1 per cent; Franklin Bank of Baltimore par; Philadelphia banks 1; Pennsylvania do 1; Eastern do 1; Northumberland do 1; Pottsville 2; Waynesburg 3; Delaware 1; Virginia banks ½; Wheeling 1½; Ohio do 2; Kentucky 1½; Indiana 2; Illinois 60; Missouri 3; Tennessee 2½; North Carolina 1; South Carolina 1; Georgia 11; Alabama 6; New-Orleans 11.

LEATHER.—The market is quiet but steady, with a good stock. We have no change in prices to notice.

Sands's Sanstparities.—This preparation is a combina-tion heretofore auknown in the history of medicine, differing entirely in its character and operations from the various pre-parations of Sarsaparilla which have been at different times offered to the public. It acts specifically upon the whole sy tem, thereby bringing it under its direct and immediate infl tem, thereby bringing it under its direct and immediate influence. Although possessed of powerful and controlling effects, yet it is extrely harmless, so that it cannot injure the most delicate constitution. When in perfect health, no effect is produced by its use except an increase of appetite; but when disease is seated in the frame and hurrying fast its victims along the path of life, then its mysterious influence is felt and seen; it enkindles new life and vigor, and brings health and strength back to the suffering and diseased.

ANOTHER SPLENDID WORK! THIS DAY WILL BE PUBLISHED AT THE NEW WORLD OFFICE,

30 ANN-STREET, PRICE TWENTY-FIVE CENTS, WANDERINGS

JOURNEYMAN TAILOR Through Europe and the East, during the years 1824 to 1840.

Translated from the third German edition BY WILLIAM HOWITT. This is a book for the People. It gives a graphic account of the author's travels on foot, through all the countries of the

East, working his way with his tools of trade-and journeying from country to country for nearly twenty years! Tailors all the world over are celebrated for a pretty nimble stretching of their legs after dismounting from the shopboard-but here we have one who literally sews his way from continent to continent-through Europe, Asia, Africa; through Turkey, Greece, Syria, Egypt, Italy and Fr nce. These travels are not only well written, and display a great

deal of shrewd observation and excellent feeling, but have the peculiar advantage of observing life in various nations from a new point of view. Instead of gliding along in the luxurious style of modern travelers in an easy-cushioned carriage, he trudges on through desert ways, works amid the swarming mass of strange cities, meets all the rubs and rebuffs attendan on his humble station, and looks on things us they appear to the eyes of the multitude. Major Rutledge was born at Charleston, S. C. in April, 1775. At the age of 22, in 1797, he joined, at Paris, Gen. C. C. Pinckney, in the Embassy sent to France, at his Private Secretary. On his return to the United States, in 1799, he received a commission as Major in the United States Army, and became also the aid of Gen. Pinckney. After having served several terms in the Legislature of his native State, he removed to Tennessee in 1816. Here he filled many situations of honor, in all of which his integrity of heart and soundness of understanding were strikingly exhibited.

Opinion of Mr. Holbrook, of the Exchange Lyceum.

Miss Oram: I received not a little satisfaction from an examination of the manuscript for your proposed books for the early instruction of children. They differ essentially, because they differ radically, from most of the books now in use, which are wrong because they violate some of the first and best principles of the human understanding, with improper modes of developing them.

of developing them.

"Your views accord essentially with those practiced with such signal success in the Deaf and Dumb Asylums; in the Prussian Schools; with universal practice in every other purrussian Schools: With universal practice in every other pur-suit but teaching, and with common sense.

"They recognize the good, old-fashioned doctrine of "learning tools by their use," which is violated by nearly ev-ery step taken in our schools from the time the child begins to say A and B, and sit on a bench, till be closes his course in a

ery step taken in our schools from the time the child begins to say A and B, and sit on a bench, till be closes his course in a Theological Seminary.

"By your books children will begin well, which is not only the first but most important step towards ending well. I hope they will be speedily published and used throughout the length and breadth of our land,

Opinion of Mr. B. Ellis, a Trustee of the Public Schools in New-York.

"Miss Oram has submitted to my inspection the outlines of a plant of a series of School Books.

"I have formed a very favorable opinion of the contemplated work. Considerable improvements have been made of late in the books commonly used, but much remains to be done.

"Much precious time is thrown away in prossing over dull,

"Much precious time is thrown away in prosing over dull, dry and uninteresting lessons, often very far above the compre-hension of children, and which cannot retain any place in the mind.
"Miss Oram's plan appears well adapted to meet these diffi-culties; to present something to the mind of the child calcu-lated to attract and to rivet the attention, and to lead it on by

arother.
"I cheerfully recommend the work to the attention of all who take an interest—and who should not?—in such subjects.
"B. ELLIS." The Child's Christian Spelling Book, including a new and simple application of Words in

teaching Pupils to read.

Doctor Milnon's Opinion.

"I have examined a specimen number of a work entitled the Child's Christian Spelling Book, designed to consist of a series of instructive Scripture lessons. Each lesson is to be ornamented with an impressive picture presenting to the eye of the pupil the most interesting circumstraces or event contained in the narrative that constitutes the lesson. For infant ed in the narrative that constitutes the lesson. For infant minds this has always been found an appendage calculated to interest the mind, and make a deep impression as well of the facts as of the illustration and practical improvement of the lesson. The clear and beautiful type employed in the printing of this work; the marked division of the words of the lessons—divided into monosyllables, dissylables, &c—the questions and answers giving explanations of the lesson, and the moral and religious instruction to be derived from it are features which in my view give the work a high value.

Besides the facility afforded in teaching a child to read by the connection of the Spelling Tables with the lesson, it is no small advantage to the plan of this work that it excludes all frivolous or improper words which sometimes deform the spelling as well as the reading lessons of little children and confines the attention to words of Scripture only.
